### 3010-1 Deerskin Leather

### GARMENT GRADE DEERSKIN LEATHER

We offer a true high-quality garment grade deerskin leather for making jackets and dresses. The white deer skin is white on the inside, too. This leather is sold by the hide. We do not cut hides; each hide is marked with square footage.

The white tail deer hides are 8 to 13 square feet per hide. Currently available in a variety of colors. (*Odocoileus virginianus*, wild).

The red deer hides leather are 14½ to 20½ square feet per hide. Currently only available in white. (*Cervus elaphus, ranch*).

### CRAFT GRADE DEERSKIN LEATHER

The Deerskin Leather is sold by the hide. The hides average about 8 to 10 square feet but may range in size from 5 to 17 square feet. Each hide has been machine-measured and has the size marked. These are good craft-grade skins in 3- to 3½-ounce weight. Expect some holes or imperfections. This is the same leather we use to make the deerskin bags. Please let us know what size hides you prefer and we will do our best to meet your requirements. Color availability varies. (*Odocoileus virginianus*, wild).

# CRAFT DEERSPLIT LEATHER BUNDLES — SMALL & LIGHTWEIGHT PIECES

Each bundle consists of small and/or lightweight pieces (1 to 1½ ounce) measuring 1 to 3 square feet each. For the most part, the skins are clean, but some holes may be present. This is the same leather we use to make our deersplit medicine bags. The bundles have been measured by machine and are marked, but the skins are not individually marked. Available only in full bundles of approximately 100 square feet. (Odocoileus virginianus, wild).

Product of Canada or the USA

Code<br/>163-12-PG-ASDescription<br/>Deersplit Leather Bundle:Prairie GoldPrice per sq ft<br/>\$5.21

### **DEERSKIN SPLIT LEATHER**

This lot of leather is mediumweight deersplit in a gold color. The pieces range between 2 to 4 square feet. This is a decent grade and is ideal for craft projects. You can order by the pound. Individual pieces are not marked with size measurements. (Odocoileus virginianus, wild).

#### DISTRESSED GOAT LEATHER

These goat leather hides are of good quality. The full-grain leather hides are neither sanded nor buffed, while the pull-up leather hides underwent buffing to achieve their distressed look.

Distressed leather are treated to look aged or worn out without losing its overall integrity. (*Capra hircus, ranch*).

Product of USA

Pull-up leather are treated to have a natural appearance which lightens in color when stretched during wear to produce a unique worn-in effect with time. This kind of aniline leather is deeply impregnated with oils and waxes, so when the leather is bent or pulled, the oils move around within the skin, causing lighter tones and interesting colors to become visible.
