FLINT ANTLER KNIVES

These flint knives have a deer antler handle. The blades are hand-knapped by an artisan. Knife size is based on the blade length. It takes more work to make the longer blades.

The small knives have a blade length of 2" to 3" long and are approximately 6½" to 7" long overall. The medium knives have a blade length of 3" to 4" long and are approximately 7" to 9" long overall. The large knives have a blade length of 4" to 5" and are approximately 8" to 9" long overall. The extra large knives have a blade length of 5" to 6" and are approximately 9" to 10.5" long overall. The blades are about 1" wide. There will be variability within each size. (*Odocoileus virginianus, wild*).

KNIVES WITH RATTLESNAKE SKIN

This knife has a twisted railroad spike handle and a cow leather sheath. The knife measures 9¼" long (including handle) and 1¼" wide, while the sheath measures 8½" long and 1¾" wide.

598-KS4408

These knives have an ornately carved falcon head handle and a synthetic leather sheath. The blades are curved and shaped in a unique way. The large knife measures 6" long (including handle) and ¾" wide; the small knife measures 4" long (including handle) and ½" wide; and the sheath measures 6" long and 1½" wide.

Knives are made in Pakistan or China
Assembled in the USA

598-KS5692

598-KS210105

This pocketknife measures 3½" long when closed, and 6¼" long when opened. The width of the blade is ¾".

These are stainless steel knives decorated with genuine rattlesnake skin inlays on the sheath or the handle. They are available in three styles and are ideal gift shop items. (*Crotalus atrox, wild; Crotalus adamanteus, wild; Bos taurus, ranch*).
