The **Blue** Fox Tails are very full tails, but typically not as bushy as the silver or cross fox tails.

The **Silver** Fox has a very big and bushy tail—about the biggest fox tail you can get.

**Cross** Foxes are a cross between a Silver and a Red Fox and tend to be quite bushy.

Fox tails from ranch-raised foxes tend to be bigger and much nicer than those from wild animals.

The ranch-raised European fox tails are ethically raised according to strict European Union standards.
